■ Summary

Motivated Final-year Software Engineering student with strong hands-on experience in full-stack web development. Skilled in React, TypeScript, and Django, with additional exposure to Solidity and decentralized applications. Adept at building scalable solutions, collaborating in Agile teams, and delivering user-focused products. Actively seeking opportunities to grow as a Full-Stack Developer while contributing to impactful projects.

■ Technical Skills

Languages:	Python, JavaScript (ES6+), TypeScript, Solidity (learning)
Frameworks & Libraries:	React, Next.js, Django, Node.js, Express
Databases:	PostgreSQL, MySQL, MongoDB
Tools & Others:	Git/GitHub, REST APIs, GraphQL, Docker, Tailwind CSS

■ Experience

Frontend Software Developer

Exodox Cooperation Limited | ■ Nigeria | Jan 2024 – Present

- Developed and maintained Django-based applications serving thousands of users.
- Built reusable React components in TypeScript, reducing development time by 75%.
- Collaborated in an 8-member Agile team, delivering features on schedule.
- Assisted in building web platforms for community initiatives using React + Django.
- Mentored junior developers in Git workflows and clean coding practices.
- Contributed to the design and deployment of solutions serving 100,000+ users.

■ Projects

Personal Finance Tracker – React + Django

Implemented authentication and dashboards to track expenses; optimized queries to reduce load time by 30%.

Decentralized Voting DApp – Solidity + React

Designed a blockchain-based voting prototype ensuring transparency and immutability.

Portfolio Website – Next.js + Tailwind CSS

Built and deployed a responsive personal portfolio via Vercel showcasing projects.

■ Education

B.Sc. (Hons) Software Engineering

Achievers University, Owo, Nigeria

Final Year (Expected Graduation: 2025)

- Finalist, Computer Science Developer Track

■ Extras

Certifications: freeCodeCamp (Full-Stack), CS50 Web, Sabi Developer, JavaScript Mastery Developer

Hackathons & Competitions: Participant – GOMYCODE hackathon; Tech talks inspiring young developers

Open Source: Lead Frontend Developer in a tech startup; ensured clean, production-ready code with zero critical bugs
